

A- FUEL OIL ADDITIVES:

1. DUAL PURPOSE PLUS (DPP)
2. F.O.T STANDARD

B- TANK CLEANERS AND DEGREASERS:

1. TANK CLEAN.
2. SEA CLEAN
3. DEGRASOL CW
4. DEGRASOL HD
5. OIL SPILL REMOVER

C- MAINTAINANCE PRODUCERS:

1. CARBON REMOVER
2. AIR COOLER CLEANER
3. METAL BRITE
4. ALKLEEN LIQUID
5. ALKLEEN POWDER
6. DESCALING LIQUID
7. DESCALING POWDER
8. UNI WASH

D- ELECTRICAL SOLVENTS:

1. ELECTROSOL

E- TANK COATING:

1. TANKOTE F

F- EVAPORATOR TREATMENT:

1. VAPTREAT LIQUID

G- COOLING WATER TREATMENT:

1. ROCOR NB
2. ROCOR NB2
3. BIOGUARD

75th El Tor ST, PORT SAID, EGYPT.

TEL: +20 122 3754706
FAX: +20 66 3241467

H- BOILER WATER TREATMENT:

1. ONE SHOT BWT

A - FUEL OIL TREATMENTS AND COMBUSTION CATALYST:

1. STANDARD EMULSION BREAKER :

Eliminates and prevents formation of sludge in fuel oil tanks.

2. DUAL PURPOSE PLUS (DPP)

While eliminating sludge in fuel oil tanks and lines DUAL PURPOSE PLUS improves combustion and controls sulphur due to the catalyst included.

B - TANK CLEANERS AND DEGREASERS :

1. TANKLEEN:

A range of products for tank cleaning including TANKLEEN SEPARATING , which is a non emulsifying, fast separating product.

2. SEACLEAN :

For double bottom tank cleaning at sea, also highly effective for tanker cleaning.

3. DEGRASOL CW

For removal of oil and grease from any surface. Apply by spray, brush or swab method wash with water.

4. DEGRASOL HD

A more concentrated version of DEGRASOL CW

5. OIL SPILL REMOVER :

Specially formulated for rapid dispersion of oil as well as dispersant which meets the high standards of effectiveness and toxicity set by WARREN SPRINGS LABORATORY.

C- GENERAL CLEANING AND MAINTAINANCE PRODUCTS :

1. CARBON REMOVER:

For removal of carbonic matter from engine parts etc.

2. AIR COOLER CLEANER:

A.C.C is a liquid blend of highly active cleaning and corrosion inhibiting compound for air coolers as well as turbo charged diesel engines in service

3. METAL BRITE:

Liquid cleaner formulated to remove rust and dirt stain from metal , wood , tile and painted surfaces METAL – BRITE will clean, brighten , and protect metal surfaces from rust .

4. ALKLEEN LIQUID:

75th El Tor ST, PORT SAID, EGYPT.

EMAIL: OPS@EGY-CO.COM, INFO@EGY-CO.COM

WEB SITE: WWW.EGY-CO.COM

TEL: +20 122 3754706

FAX: +20 66 3241467

Heavy duty alkaline cleaners , non caustic , for cleaning animal and vegetable oils and fast , in addition ALKLEEN LIQUID is a corrosion inhibitor to prevent corrosion of metals which is a critical requirement for tank cleaning where it acts as protective tank coatings. It is a strong neutralizing chemical required after acid cleaning of tanks

5. ALKIEEN POWDER :

Heavy duty alkaline cleaners for removal of fatty acid oil and oxidized oil residues from boilers, condensers, heat exchangers and engine parts.

6. DESCALING LIQUID :

Is designed for rapid and thorough cleaning of heat transfer surfaces by chemically removing rust and water scales it is a nonvolatile liquid compounded of liquid acid, inhibitors and wetting agents. DESCALING LIQUID is inhibited against attack on all metals except Aluminum, Zinc and Magnesium and specially formulated for carbon – steel fire – tube and water turbo boilers , condensers , super heaters , economizers , evaporators , steam and water lines.

7. DESCALING POWDER :

Water soluble powder dissolves water scales and rust deposit in heat exchangers, air conditioning and similar equipments.. It is also effective in decaling oils wells and industrial water wells. It is a safe acid compounded of dry acid , inhibitor and wetting agents

8. UNI – WASH :

General purpose liquid detergent

D. ELECTRICAL SOLVENTS :

1. ELECTROSOL :

Is a cold degreasing safety solvent, inflammable and is designed for degreasing and cleaning electrical equipments such as motors and generators.

E. PROTECTIVE COATINGS :

TANKOTE F :

It is a mineral oil combined with wetting agents and water displacing surfactants which adhere to the metal surfaces forming a protective shield.

F. EVAPORATOR TREATMENT :

VAPTREAT LIQUID :

It is a scale preventative in high and low pressure evaporators.

G. COOLING WATER TREATMENT :

75th El Tor ST, PORT SAID, EGYPT.

EMAIL: OPS@EGY-CO.COM, INFO@EGY-CO.COM

WEB SITE: WWW.EGY-CO.COM

TEL: +20 122 3754706

FAX: +20 66 3241467

1. ROCOR NB :

Ideal corrosion inhibitor for closed heating or cooling systems, it is a non chromate liquid.

2. ROCOR NB2 :

Liquid preventing formation of scales in closed as well as opened cooling system.

3. BOIGUARD :

Effective chemical against algae and Micro – organism, for cooling towers as well as opened cooling system. It is highly active as oxygen scavenger for the dissolved oxygen in water of cooling towers and opened cooling systems.

H. BOILER WATER TREATMENT :

1. ONE SHOT BWT :

It is a designed chemical liquid added to the feeding water of boilers to prevent scale formation and accumulation of salts on internal sides of boilers and water pipes, by absorbing dissolved oxygen content of water for LOW as well as MEDIUM pressure boilers.

provides a range of imported chemicals:

- Galley Cleaner
- Multicleaner
- HP Cleaner
- Metal Surface Cleaner
- Degreasol CW
- Hand Cleaning Gels

Cargo Hold Cleaning Chemicals for Bulk Carrier

75th El Tor ST, PORT SAID, EGYPT.
